## WIRES AND CABLES

As per international practice which is also adopted by Bureau of Indian Standards, the diameter of the conductor shown above is nominal. The size of the conductor is determined by its resistance. The construction of the conductor is as per market convention and should be treated as a guide line only. It may vary within the limits of IS: 8130: 1994 with its related classes and tables.

Central /state /local Taxes shall be charged as applicable.

All information given herein is in good faith. G-HOME shall not be liable for any damages arising out of incorrect use or interpretation. The company reserves the right to change any of the above specifications without any prior notice.
